

US Fledermaus Training Courses 2014

US Fledermaus Training Courses 2014

QPS is pleased to invite you to join us for Fledermaus training at our Portsmouth, New Hampshire office. Courses are offered during the following weeks:

- **March 24th - 28th, 2014**
- **June 9th - 13th, 2014**
- ***September 8th - 11th, 2014**
- **November 17th - 21st, 2014**

For each course week, we will be offering our three-day Core Visualization and Analysis Tools training course followed immediately by our two-day Processing Tools course. The advanced course as a stand-alone is for proficient Fledermaus users.

**The September course will be the full course covered in four days rather than five. Class size will be limited to allow for a faster pace.*

Costs:

Three-day Core Visualization and Analysis Tools Course: \$600.00

The core course for all new Fledermaus users, new Fledermaus Version 7 users, or those in need of a refresher. Covers the functionality available in the FMViz4D bundle -- use of the Fledermaus, DMagic, OmniViewer, FMCommand, and VesselManager modules for visualization and analysis -- as well as FMGIS functionality related to the core visualization tools.

Two-day Processing Tools Course: \$400.00

Covers all additional functionality available in the FM Habitat, FM Offshore, FM Hydro, and FM Pro bundles -- use of the FMMidwater module for water column data, the FMGeocoder Toolbox (FMGT) module for backscatter data, PFM-3D Editor-CrossCheck for bathymetry processing and quality analysis, and the RoutePlanner module for pipeline planning. FMGIS functionality related to the PFM and FMGT will also be covered. There will also be time at the end of the course for attendees to review their own data with the help of the instructor. Note: The first day of this course will cover the modules that are available as add-ons and as part of FM Habitat and FM Offshore bundles (FMMidwater, FMGT and associated FMGIS capability, and RoutePlanner). Core Course attendees can choose to add this first day to the three-day course for \$200.00.

Full Five-Day Course: \$900.00

Cost includes instruction, training materials, and use of a Fledermaus license for training. Attendees are responsible for travel, accommodations, and all other expenses and are expected to provide their own laptop meeting the minimum Fledermaus hardware requirements ([Hardware Requirements](#)). Alternatively, a laptop can be rented for you at cost (approx. \$300.00/week).

Registration:

Registration can be paid by check or credit card. A \$100.00 non-refundable deposit is required at time of registration to hold your place on the course, with the balance due two weeks prior to the course start date. Courses will be limited to six participants. For more information or to register, please contact us:
